Ok. Charters, Newhart and Powell are all out there. You might want to check in with Charters and Powell in particular regarding what they are doing for the R8 on data analysis.

Yes. We got back from the beach this morning. I've been working from home since around 11am. Just today and tomorrow. Marty comes back into play on Monday.

Marc,

R8 requested me to help them out this weekend so their main data osc can get a

breather.

Task is outlined below.

Megan/Jamie:l/Lucutch;

Joe Schaefer is going to jump in and help me. He probably has a clearer head. Dan Burgo (OSC Data Team Rep from R1) is also available.

Steve's new Website is gold King Assessment. Megan and Joe have access. Everything we do in [OSC.net](http://OSC.net) should be set to PRIVATE.

Here is what I think we can do:

**Deliberative Process/Ex. 5**

## **Deliberative Process/Ex. 5**

Megan and Jamie are on the ground assessing what else can be done including basic documents that may be available.

Joe: can you take the lead here and make sure this all gets done??
